FORM 2
MCH BUDGET DETAILS FOR FY 2005

[Secs. 504 (d) and 505(a)(3)(4)]

STATE: WI

1. FEDERAL ALLOCATION

(Item 15a of the Application Face Sheet [SF 424])
Of the Federal Allocation (1 above), the amount earmarked for:

\$ 11,267,938

A.Preventive and primary care for children:

\$ 3,597,748 (31.93%)

B.Children with special health care needs:

\$ 3,588,088 (31.84%)

(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]

C.Title V administrative costs:

\$ 736,716 (6.54%)

(The above figure cannot be more than 10%)(Sec. 504(d))

2. UNOBLIGATED BALANCE (Item 15b of SF 424)

\$ 0

3. STATE MCH FUNDS (Item 15c of the SF 424)

\$ 9,221,541

4. LOCAL MCH FUNDS (Item 15d of SF 424)

\$ 0

5. OTHER FUNDS (Item 15e of SF 424)

\$ 0

6. PROGRAM INCOME (Item 15f of SF 424)

\$ 2,732,932

7. TOTAL STATE MATCH (Lines 3 through 6)

(Below is your State's FY 1989 Maintenance of Effort Amount)

\$ 4,721,800

\$ 11,954,473

8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)

(Total lines 1 through 6. Same as line 15g of SF 424)

\$ 23,222,411

9. OTHER FEDERAL FUNDS

(Funds under the control of the person responsible for the administration of the Title V program)

a. SPRANS: \$ 0

b. SSDI: \$ 100,000

c. CISS: \$ 0

d. Abstinence Education: \$ 615,852

e. Healthy Start: \$ 202,500

f. EMSC: \$ 100,000

g. WIC: \$ 61,000,000

h. AIDS: \$ 856,158

i. CDC: \$ 26,143,625

j. Education: \$ 0

k. Other: \$ 0

Lead Control \$ 4,340,000

Others \$ 203,964

10. OTHER FEDERAL FUNDS (SUBTOTAL of all Funds under item 9)

\$ 93,562,099

11. STATE MCH BUDGET TOTAL

(Partnership subtotal + Other Federal MCH Funds subtotal)

\$ 116,784,510

FORM NOTES FOR FORM 4

None

FIELD LEVEL NOTES

1. Section Number: I. Federal-State MCH Block Grant Partnership

Field Name: PregWomenExpended

Row Name: Pregnant Women

Column Name: Expended

Year: 2003

Field Note:

This variance, a decrease of \$555,938 (23%), is due to decreases in the Title V and Maintenance of Effort components of the Federal/State Partnership - \$351,730 and \$196,150 respectively.

The Title V decrease is primarily due to two factors: 1) 75% is due to a decrease in State Operations activities supporting services to pregnant women, and 2) 25% is due to a decrease in the expenditures of Local Public Health Departments (LPHD), Statewide projects and Tribal agencies.

2. Section Number: I. Federal-State MCH Block Grant Partnership

Field Name: Children_0_1Expended

Row Name: Infants <1 year old

Column Name: Expended

Year: 2002

Field Note:

This variance is due to increases in the Title V and Match components of the Federal/State Partnership.

The Title V increase is the result of two factors: 1) approximately 30% is due to an increase in state operations expenditures attributed to activities related to infants and 2) approximately 70% is due to an increase in expenditures by local public health departments (LPHDs) for services related to infants. Title V funds are allocated to LPHDs via the performance based contract negotiation process. Within broad parameters, agencies have the opportunity to decide what services to provide and who will receive them. Since negotiations are not completed until several months after the Title V application is submitted, budgeted figures are an estimate based on the most recent available data, e.g. 2000 data for 2002 estimates. Expended figures are based on actual results and any change from budgeted is an indication that during the negotiation process agencies chose to change their target population.

The increase in Match is a reflection of the increase in performance based contract expenditures by LPHDs. A minimum 75 % match requirement is imposed on funds allocated to LPHDs.

3. Section Number: I. Federal-State MCH Block Grant Partnership

Field Name: Children_0_1Expended

Row Name: Infants <1 year old

Column Name: Expended

Year: 2003

Field Note:

This variance, an increase of \$777,558 (52%), is due to increases in the Title V and Match components of the Federal/State Partnership - \$383,791 and \$393,353 respectively.

The Title V increase is due to two factors: 1) 54% is due to an increase in expenditures by Local Public Health Departments (LPHDs) for services to Infants, and 2) 43% is due to an increase in expenditures by Statewide projects.

The Match increase is a reflection of the increases LPHD and Statewide project expenditures described in the previous paragraph. Since a minimum 75% match requirement is imposed on Title V funds allocated to LPHDs and Statewide projects, any increase in those funds will be followed by an increase in Match.

4. Section Number: I. Federal-State MCH Block Grant Partnership

Field Name: Children_1_22Expended

Row Name: Children 1 to 22 years old

Column Name: Expended

Year: 2002

Field Note:

This variance is due to decreases in all components of the Federal/State Partnership: Title V (\$288,000), Match (\$278,000), Program Income (\$80,000) and Maintenance of Effort (\$237,000).

The decrease in Title V is primarily due to a decrease in state operations activities supporting services to children. The decrease in Match reflects a decrease in the match reported by LPHDs and non-government agencies receiving grants. The decrease in Program Income reflects a decrease in the amount of program income reported by local health agencies receiving grants to provide reproductive health services. They are required to provide 20% program income. They greatly exceed this amount, but there is variation every year. The decrease in Maintenance of Effort is due to some state funds being no longer eligible for Title V because they are being used to match other federal resources.

5. Section Number: I. Federal-State MCH Block Grant Partnership

Field Name: AdminExpended

Row Name: Administration

Column Name: Expended

Year: 2002

Field Note:

This variance is due to decrease in the Title V component of the Federal/State Partnership. A new cost allocation plan for administrative services provided to the various programs within the Division of Public Health resulted in reduced charges to the Title V program. This plan was implemented after the 2002 Title V application was submitted.

FIELD LEVEL NOTES

1. **Section Number:** Main
Field Name: DirectHCExpended
Row Name: Direct Health Care Services
Column Name: Expended
Year: 2002
Field Note:
Prepare note

2. **Section Number:** Main
Field Name: EnablingExpended
Row Name: Enabling Services
Column Name: Expended
Year: 2002
Field Note:
This variance is due to increases in the Title V and Match components of the Federal/State Partnership.

Title V funds increased in two areas: 1) grant to LPHDs for performance based contracts - as described on Form 4 agencies had the opportunity to change services after the Title V application was submitted, and 2) CSHCN Reginal Centers received additional funding due to the increase in the 2002 Title V award.

The increase in match paralleled the increase in Title V expenditures by local health agencies due to the 75% match requirement imposed on them.

3. **Section Number:** Main
Field Name: EnablingExpended
Row Name: Enabling Services
Column Name: Expended
Year: 2003
Field Note:
The variance, an increase of \$479,290 (13%), is due to increases in the Title V and Match components of the Federal/State Partnership - \$207,979 and \$4289,311 respectively.

Title V increase is due to an increase in the expenditures of LPHDs, Statewide projects and Regional CSHCN Centers.

The Match increase is a reflection of the increases LPHD and Statewide project expenditures described in the previous paragraph. Since a minimum 75% match requirement is imposed on Title V funds allocated to LPHDs and Statewide projects, any increase in those funds will be followed by an increase in Match.

4. **Section Number:** Main
Field Name: PopBasedExpended
Row Name: Population-Based Services
Column Name: Expended
Year: 2003
Field Note:
The variance, an increase of \$165,264 (16%), is due to an increase in the Match component of the Federal/State Partnership. LPHDs and Statewide projects reported more expenditures for population based services.

FORM 6

NUMBER AND PERCENTAGE OF NEWBORNS AND OTHERS SCREENED, CASES CONFIRMED, AND TREATED

Sect. 506(a)(2)(B)(iii)

STATE: WI

Total Births by Occurrence: 67,645

Reporting Year: 2003

Type of Screening Tests	(A) Receiving at least one Screen (1)		(B) No. of Presumptive Positive Screens	(C) No. Confirmed Cases (2)	(D) Needing Treatment that Received Treatment(3)	
	No.	%			No.	%

Cystic Fibrosis	68,664	101.5	203	16	16	100
Congenital Adrenal Hyperplasia (CAH)	68,664	101.5	134	4	4	100

Screening Programs for Older Children & Women (Specify Tests by name)

- (1) Use occurrent births as denominator.
 (2) Report only those from resident births.
 (3) Use number of confirmed cases as denominator.

FORM NOTES FOR FORM 6

Occurrent births: There were 67,645 resident births in Wisconsin according to the preliminary count of Wisconsin resident births; these data are provisional, Wisconsin Department of Health and Family Services, Division of Health Care Financing, Wisconsin Bureau of Health Information. The count of occurrent births for 2003 is not available until the summer of 2005.

Data Issues: NBS data files and birth certificate records are not linked. Provisional resident birth data indicate a small discrepancy between the numbers of babies born in Wisconsin and the numbers screened; these data will not be final until summer 2004. These files are not linked.

NBS data includes resident and occurrent births. Resident birth data are not available.

FIELD LEVEL NOTES

FORM 7
NUMBER OF INDIVIDUALS SERVED (UNDUPLICATED) UNDER TITLE V
(BY CLASS OF INDIVIDUALS AND PERCENT OF HEALTH COVERAGE)

[Sec. 506(a)(2)(A)(i-ii)]

STATE: WI

Reporting Year: 2003

Types of Individuals Served	TITLE V	PRIMARY SOURCES OF COVERAGE				
	(A) Total Served	(B) Title XIX %	(C) Title XXI %	(D) Private/Other %	(E) None %	(F) Unknown %
Pregnant Women	8,233	50.4	2.9	19.2	18.3	9.2
Infants < 1 year old	66,684	38.5	1.8	55.7	0.9	3.1
Children 1 to 22 years old	55,969	47.9	5.3	7.7	31.6	7.1
Children with Special Healthcare Needs	4,161	34.2	5.4	40.4	5.3	14.5
Others	52,674	50.4	0.9	14.3	30.2	4.2
TOTAL	187,721					

FORM NOTES FOR FORM 7

Sources: Title V program data and Reproductive Health/Family Planning data come from SPHERE (Secure Public Health Electronic Record Environment), local agency reports, and NBS data, 2003 from the State Laboratory of Hygiene.

Health care coverage are required fields for local agencies that use SPHERE. Agencies not using SPHERE were required to report on health care coverage.

The data for primary sources of coverage for infants are: 1) estimates from the 2002 birth file because NBS data do not have primary sources of coverage, 2) SPHERE, and 3) local agency reports.

FIELD LEVEL NOTES

1. **Section Number:** Main

Field Name: Children_0_1_TS

Row Name: Infants <1 year of age

Column Name: Title V Total Served

Year: 2005

Field Note:

Data issue: Total infants <1 year of age includes: 1) 66,684 = NBS and 2) Title V = 5758 [(1,109 CSHCN infants) + [(4,649) infants]. The NBS file, SPHERE (data collection system for agencies receiving Title V funds) and local agencies' data systems are not linked; therefore, the Title V infants are included in the NBS numbers because it's likely those infants were screened.

2. **Section Number:** Main

Field Name: Children_0_1_XIX

Title V Served	4,379	521	218	0	0	0	0	521
Eligible for Title XIX	22,785	3,949	13	0	0	0	0	3,949

FORM NOTES FOR FORM 8

Sources: Total deliveries and infants in state: 2002 resident births, Wisconsin Department of Health and Family Services, Division of Health Care Financing, Bureau of Health Information, 2004. 2003 birth data will not be available until December 2004. Eligible for Title XIX: Medicaid status at birth depends on the mother being a Wisconsin resident, and to a lesser extent, on the birth occurring in Wisconsin, therefore, these data are restricted to infants born in Wisconsin whose mothers were Wisconsin residents. Eligible for Title V: Title V program data SPHERE (Secure Public Health Electronic Record Environment) and local agency reports.
Data issue: 2003 birth data for Wisconsin will not be available until December 2004. Therefore, this table reflects data from two different years: 2002 for resident births for infants, deliveries and Title XIX eligibility, and 2003 for infants and deliveries served by Title V.

FORM 10
TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT
STATE PROFILE FOR FY 2005
[SEC. 506(A)(1)]
STATE: WI

1. State MCH Administration:
(max 2500 characters)

The Title V MCH/CSHCN Block Grant funds are administered by the Wisconsin Division of Public Health(DPH), within the Bureau of Family and Community Health (BFCH), Family Health Section (FHS). The FHS is clearly demarcated within the Division as the designee for administration of the Title V activities. This clear demarcation is critical for ensuring comprehensive program activity and a single point of accountability.

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ 11,267,938
3. Unobligated balance (Line 2, Form 2)	\$ 0
4. State Funds (Line 3, Form 2)	\$ 9,221,541
5. Local MCH Funds (Line 4, Form 2)	\$ 0
6. Other Funds (Line 5, Form 2)	\$ 0
7. Program Income (Line 6, Form 2)	\$ 2,732,932
8. Total Federal-State Partnership (Line 8, Form 2)	\$ 23,222,411

9. Most significant providers receiving MCH funds:

Local Public Health Departments
Tribal Agencies
Family Planning Providers
Statewide Not for Profit Agencies

10. Individuals served by the Title V Program (Col. A, Form 7)

a. Pregnant Women	8,233
b. Infants < 1 year old	66,684
c. Children 1 to 22 years old	55,969
d. CSHCN	4,161
e. Others	52,674

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:

(max 2500 characters)

The Wisconsin DPH issues performance based, consolidated contracts. In this process, agencies (primarily local public health departments) have the flexibility to choose the service they wish to provide and submit measurable objectives to the DPH. Objectives address: 1) healthy birth outcomes to include activities such as prenatal care coordination, pregnancy testing, early entry into prenatal care, prenatal/postpartum education, prenatal smoking cessation and Amish lay midwives network; 2) optimal growth and development and primary care for children, birth to 21, (including children with special health care needs) to include home safety and car inspections and other injury prevention activities, comprehensive well child exams, service coordination, home visitation, outreach to improve access to services and parent education; and 3) the promotion of healthy life style choices for school age youth to include safety and injury prevention at home, physical health and mental health individual screenings, adolescent pregnancy prevention, nutrition, physical activity and obesity prevention, ATODA, and self-esteem.

b. Population-Based Services:

(max 2500 characters)

Statewide and regional MCH Projects were determined through a competitive RFP process in 1999 and will continue through 2004. These projects provide population based and infrastructure building services addressing a broad array of MCH issues to include: statewide genetic services, perinatal health, child health, sudden unexpected infant deaths, regional children with special health care needs centers, public information and referral services for women, children and families, family planning and reproductive health and regional education and training projects.

c. Infrastructure Building Services:

(max 2500 characters)

Wisconsin Association of Perinatal Care maintains an effective statewide system of perinatal services through the collaboration of public and private sector health care providers and consumers. They have a strong role in the Universal Newborn Hearing Screening Program, or Wisconsin's Sound Beginnings. The Children's Hospital of Wisconsin houses the Children's Health Alliance of Wisconsin that provides a statewide system of child health services with the collaboration of public and private sector health care providers and consumers. Major initiatives include asthma and access to dental health. Five regional CSHCN Centers provide information, referral and follow up, promote a parent to parent support network and provide service coordination to families with children who have special health care needs. The Wisconsin First Step hotline, 1-800-722-2295, is a comprehensive information and referral service with web base access that can link callers to information about WIC, Medical Assistance, women's health services, Birth to Three Programs, etc.

12. The primary Title V Program contact person:

Name	Susan Uttech
Title	Family Health Section Chief
Address	BFCH - Post Office Box 2659
City	Madison

13. The children with special health care needs (CSHCN) contact person:

FORM NOTES FOR FORM 11

Core Performance Measures: Data for these measures are from several sources, including national and state surveys, and data systems maintained by the state of Wisconsin. Data for measures #1 and 12 are CY 2003; data for measures #8, 10, 15, 13, 15, 16, 17, and 18 are for CY 2002 from the Wisconsin Department of Health and Family Services, Bureau of Health Information; these data are maintained in retrospective state databases and are not released or published until 18 months after the end of the data year; therefore, 2003 data will not be available until mid-2005. Data for measures #2, 3, 4, 5, and 6 are from the National Center for Health Statistics (NCHS) State and Local Area Integrated Telephone Survey (SLAITS) CSHCN module. Data for measures #7 and 14 are SFY 2003. Data for measure #9 are estimates for CY 2003. Data for measure #11 are for CY 2002.

Negotiated Performance Measures: Data for these measures are from several sources, including state survey, national data systems, and data systems maintained by the state of Wisconsin. Data for measures #1, 3, 13, 14, and 15 are for CY 2002; these data are maintained in retrospective state databases and are not released or published until 18 months after the end of the data year; therefore, 2003 data will not be available until mid-2005. Data for measure #2 are collected by the Family Planning Program in Wisconsin. Data for measures #4 and 12 are from surveys that are administered every other year (#4) or when funding is available (#12). Data for #7 are for 2002 from CDC; data for 2003 will not be available until mid-2005. Data for #16 are Title V-specific data from the Secure Public Health Electronic Record Environment (SPHERE) and MCH-funded agencies reports for 2003.

FIELD LEVEL NOTES

- 1. Section Number:** Performance Measure #1
Field Name: PM01
Row Name:
Column Name:
Year: 2005
Field Note:
Source: Numerator: NBS program, State Lab of Hygiene, Wisconsin, 2003. The number of infants that were confirmed with a condition through newborn screening and who receive appropriate follow-up care.
Denominator: NBS program, State Lab of Hygiene, Wisconsin, 2003. The number of screened through NBS and confirmed with a condition.
Wisconsin screens for 26 congenital disorders. Every newborn with an abnormal NBS result is tracked by the NBS Program to a normal result or appropriate clinical care.
- 2. Section Number:** Performance Measure #2
Field Name: PM02
Row Name:
Column Name:
Year: 2005
Field Note:
Source: NCHS SLAITS CSHCN module; the data reported in 2002 pre-populated the data for 2003 for this performance measure.
- 3. Section Number:** Performance Measure #3
Field Name: PM03
Row Name:
Column Name:
Year: 2005
Field Note:
Source: NCHS SLAITS CSHCN module; the data reported in 2002 pre-populated the data for 2003 for this performance measure.
- 4. Section Number:** Performance Measure #4
Field Name: PM04
Row Name:
Column Name:
Year: 2005
Field Note:
Source: NCHS SLAITS CSHCN module; the data reported in 2002 pre-populated the data for 2003 for this performance measure.
- 5. Section Number:** Performance Measure #5
Field Name: PM05
Row Name:
Column Name:
Year: 2005
Field Note:
Source: NCHS SLAITS CSHCN module; the data reported in 2002 pre-populated the data for 2003 for this performance measure.
- 6. Section Number:** Performance Measure #6
Field Name: PM06
Row Name:
Column Name:
Year: 2005
Field Note:
Source: NCHS SLAITS CSHCN module; the data reported in 2002 pre-populated the data for 2003 for this performance measure.
- 7. Section Number:** Performance Measure #7
Field Name: PM07
Row Name:
Column Name:
Year: 2005
Field Note:
Source: National immunization survey for Wisconsin for SFY 2003 (July 1, 2002--June 30, 2003) with 4 DTap:3 polio:1 MMR:3 hep B :3 Hib among children 19-35 months of age for Wisconsin is 82.6% (727/880). The national goal for 2010 is 90%, we revised our objectives accordingly.
- 8. Section Number:** Performance Measure #8
Field Name: PM08
Row Name:
Column Name:
Year: 2005
Field Note:
Sources: Numerator: Wisconsin Department of Health and Family Services, Wisconsin Division of Health Care Financing, Bureau of Health Information, Wisconsin Births and Infants Deaths, 2002, Madison, Wisconsin, 2004. Denominator: Wisconsin Department of Health and Family Services, Division of Health Care Financing, Bureau of Health Information. Wisconsin Interactive Statistics on Health (WISH), <http://dhfs.wisconsin.gov/wish/>, Population Module, accessed 03/01/2004.
Data issues: Data for CY2003 are not available from the Bureau of Health Information until mid-2005.
- 9. Section Number:** Performance Measure #9
Field Name: PM09
Row Name:
Column Name:
Year: 2005
Field Note:
Source: Numerator: calculated by taking 2001's indicator, the most recent Wisconsin Division of Public Health "Make Your Smile Count" survey of third grade children, 2001-

02. Denominator: the number of third grade children enrolled in public and private schools
SY 2002-2003. A follow up survey is planned for 2005-06.

10. Section Number: Performance Measure #10

Field Name: PM10

Row Name:

Column Name:

Year: 2005

Field Note:

Sources: Numerator: Wisconsin Department of Health and Family Services, Wisconsin Division of Health Care Financing, Bureau of Health Information, Wisconsin Deaths, 2002, Madison, Wisconsin, 2004. Denominator: Wisconsin Department of Health and Family Services, Division of Health Care Financing, Bureau of Health Information. Wisconsin Interactive Statistics on Health (WISH), <http://dhfs.wisconsin.gov/wish/>, Population Module, accessed 03/01/2004.

Data issues: Data for CY2003 are not available from the Bureau of Health Information until mid-2005.

11. Section Number: Performance Measure #11

Field Name: PM11

Row Name:

Column Name:

Year: 2005

Field Note:

Source: 2002 Mothers Survey, Ross Products Division.

Numerator: Unweighted data.

Denominator: Unweighted data.

Data issues: Breastfeeding data are not recorded on the Wisconsin birth certificate or hospital discharge data; therefore, the data we report comes from the Ross Mothers Survey; an on-going survey mailed to a representative sample of new mothers with infants 1 month, 2 months, etc. until 1 year old. The mother self-reports the type of milk her baby was fed in the hospital, at 1 week, in the last 30 days, and most often in the last week. The survey does not distinguish between exclusive and partial breastfeeding.

12. Section Number: Performance Measure #12

Field Name: PM12

Row Name:

Column Name:

Year: 2005

Field Note:

Comment: Data on hearing screening are reported on one page of the newborn blood-spot card that goes to the Wisconsin State Lab of Hygiene. The data are delivered to us as a tab-delimited file at least once a month, converted to a SAS dataset, and used to compile monthly reports on hearing screening in Wisconsin. The hearing screening records are also sent directly to the Wisconsin Early Hearing Detection and Intervention Tracking Referral and Coordination (WE-TRAC) System.

Data issues: Hearing screening results are occasionally separated from the blood card, delaying accurate reporting. Alternatively, sometimes the blood screening is repeated, but not the hearing screening, therefore, there may be duplicate (inaccurate) reporting. Beginning in 2005, data will be collected directly from WE-TRAC which will place accurate testing and follow-up responsibility on the birth hospitals, lessening the possibility that hearing screening results (and follow-up services) will be lost or delayed.

13. Section Number: Performance Measure #13

Field Name: PM13

Row Name:

Column Name:

Year: 2005

Field Note:

Source: Wisconsin Department of Health and Family Services, Division of Health Care Financing, Bureau of Health Information, Family Health Survey, 2002. Madison, Wisconsin: 2004. Numerator: Weighted data. Denominator: Weighted data.

Data issues: The annual Wisconsin Family Health Survey is a random digit dial telephone survey that collects and reports information about health status, problems, insurance coverage, and use of health care services among Wisconsin residents. The survey has questions about health-related limitations and chronic conditions for persons greater than age seventeen. Data for 2003 are not available from the Bureau of Health Information until mid-2005.

14. Section Number: Performance Measure #14

Field Name: PM14

Row Name:

Column Name:

Year: 2005

Field Note:

Source: Numerator and denominator from the Medicaid Evaluation and Decision Support Data Warehouse for SFY2003.

15. Section Number: Performance Measure #15

Field Name: PM15

Row Name:

Column Name:

Year: 2005

Field Note:

Source: Numerator and Denominator: Wisconsin Department of Health and Family Services, Wisconsin Division of Health Care Financing, Bureau of Health Information, Wisconsin Births and Infant Deaths, 2002. Madison, Wisconsin, 2004.

Data issues: The objectives, although flatlined, 1.0% through 2004, and .9% from 2005 - 2008, reflect realistic outcomes given the limits of clinical ability to manage preterm labor and the increasing rate of higher-order multiple births. Data for 2003 are not available from the Bureau of Health Information until mid-2005.

16. Section Number: Performance Measure #16

Field Name: PM16

Row Name:

Column Name:

Year: 2005

Field Note:

Sources: Numerator: Wisconsin Department of Health and Family Services, Wisconsin Division of Health Care Financing, Bureau of Health Information, Wisconsin Deaths, 2002, Madison, Wisconsin, 2004. Denominator: Wisconsin Department of Health and Family Services, Division of Health Care Financing, Bureau of Health Information.

Wisconsin Interactive Statistics on Health (WISH), <http://dhfs.wisconsin.gov/wish/>, Population Module, accessed 03/01/04.

Data issues: Data for 2003 are not available from the Bureau of Health Information until mid-2005.

17. Section Number: Performance Measure #17

Field Name: PM17

Row Name:

Column Name:

Year: 2005

Field Note:

Source: Wisconsin Department of Health and Family Services, Wisconsin Division of Health Care Financing, Bureau of Health Information, Wisconsin Births and Infant Deaths, 2001, Madison, 2003. Wisconsin Association for Perinatal Care, Self-Designated Perinatal Centers in Wisconsin.

Data issues: The data for this measure, from 1999-2002, has fluctuated from a low of 64.6% in 2000 to a high of 83.2% in 2001; the 2002 data, 68.6% (95% CI = 78.6%, 58.6%), represent a lower percentage of very low birth weight infants delivered at facilities for high-risk deliveries and neonates. In Wisconsin, hospitals self-designate level of care. Wisconsin does not have a regulatory function to standardize these self-designations. In addition, a Minnesota facility serves as the Level III perinatal center for

high-risk deliveries in northwestern Wisconsin and does not provide birth data to our vital records. Data for 2003 are not available from the Bureau of Health Information until mid-2005.

18. **Section Number:** Performance Measure #18
Field Name: PM18
Row Name:
Column Name:
Year: 2005
Field Note:
Source: Numerator and Denominator: Wisconsin Department of Health and Family Services, Division of Health Care Financing, Bureau of Health Information, Wisconsin Births and Infant Deaths, 2002. Madison, Wisconsin, 2004.
Data issues: Data for 2003 are not available from the Bureau of Health until mid-2005.
19. **Section Number:** State Performance Measure #1
Field Name: SM1
Row Name:
Column Name:
Year: 2005
Field Note:
Source: Wisconsin Department of Health and Family Services, Division of Health Care Financing, Bureau of Health Information, Family Health Survey, 2002. Madison, Wisconsin, 2004. The annual Wisconsin Family Health Survey is a random digit dial telephone survey that collects and reports information about health status, problems, insurance coverage, and use of health care services among Wisconsin residents.
Numerator: Weighted data. Denominator: Weighted data.
Data issues: We did not revise subsequent year's objectives; the data reflect random fluctuations. Data for 2003 are not available from the Bureau of Health Information until mid-2005.
20. **Section Number:** State Performance Measure #2
Field Name: SM2
Row Name:
Column Name:
Year: 2005
Field Note:
Sources: Numerator: Number of women receiving contraceptive services at GPR/Title V and Title X funded clinics. Denominator: Estimated number of Wisconsin women at risk of unintended pregnancy estimated by the Alan Guttmacher Institute (AGI). Revised 2000 estimates of need.
Data issues: Among the 1,235,190 women in Wisconsin ages 13-44, 634,250 are estimated to be at risk of unintended pregnancy and in need of contraceptive services and supplies. Of this number, 230,060 are estimated to be at risk of unintended pregnancy and in need of publicly supported contraceptive services: this includes 95,350 under age 20, and 134,710 between the ages of 20-44 and under 250% of poverty. The statewide denominator used to determine the percent of total estimated need in Wisconsin met through WI GPR/Title V funded services is 230,060. The basis for the projections for 2004-2008 objectives is implementation and continuation of the WI Medicaid waiver that expands eligibility for family planning services. We assume the Medicaid waiver, implemented January 1, 2003, will result in an increased number of women at risk of unintended pregnancy receiving services at publicly supported clinics; therefore, we revised our objectives accordingly. Please note the following changes in 2003: 1) AGI released revised estimates of need for 2000, and the statewide denominator changed from 296,390 to 230,060; 2) an increased number of women received services in 2003 compared to 2002; and 3) the methodology for counting patients was changed in 2003 – from contraceptive patients receiving a physical examination to any patient receiving contraceptive management services as defined by a V25 ICD-9 code. The change in the denominator alone resulted in an increased percentage from 33.3% (98,678/296,390) to 42.9% (98,678/230,060).
21. **Section Number:** State Performance Measure #3
Field Name: SM3
Row Name:
Column Name:
Year: 2005
Field Note:
Source: Numerator and Denominator: Wisconsin Department of Health and Family Services, Wisconsin Division of Health Care Financing, Bureau of Health Information, Wisconsin Births and Infant Deaths, 2002. Madison, Wisconsin, 2004.
Data issues: Data for 2003 are not available from the Wisconsin Bureau of Health Information until mid-2005.
22. **Section Number:** State Performance Measure #4
Field Name: SM4
Row Name:
Column Name:
Year: 2005
Field Note:
Source: Wisconsin Department of Public Instruction, Wisconsin Youth Risk Behavior Survey, 2003. Madison, Wisconsin, 2003. Numerator: Weighted data. Denominator: Weighted data.
Data issues: The Wisconsin YRBS is conducted as part of the national YRBS by CDC and is administered every other year in Wisconsin. A stratified random sample of classrooms in all public schools with ninth through twelfth grades is used.
23. **Section Number:** State Performance Measure #7
Field Name: SM7
Row Name:
Column Name:
Year: 2005
Field Note:
Source: 2002 Pregnancy Nutrition Surveillance System (PNSS) report.
Data issues: Breastfeeding data are collected by the WIC program and sent to CDC for analysis by the Pregnancy Nutrition Surveillance System (PNSS). The data reflect approximately 40% of all births in the state. Our annual objectives move toward the national objective of 75% breastfeeding initiation for Healthy People 2010. We realize this objective is high, however, since it is consistently used in reports and statements distributed to our local projects, we are comfortable presenting it to our local projects.
24. **Section Number:** State Performance Measure #12
Field Name: SM12
Row Name:
Column Name:
Year: 2005
Field Note:
Source: Numerator: calculated by taking 2001's indicator, the most recent Wisconsin Division of Public Health Make Your Smile County survey of third grade children, 2001-02. Denominator: the number of third grade children enrolled in public and private schools in SY 2002-03 from the Wisconsin Department of Public Instruction. A follow up survey is planned for 2005-06.
25. **Section Number:** State Performance Measure #13
Field Name: SM13
Row Name:
Column Name:
Year: 2005
Field Note:
Data issues: Height and weight data are collected by the WIC Program and sent to CDC for analysis by the Pediatric Nutrition Surveillance System (PedNSS). While the WIC data do not represent the population as a whole for children ages 2-4, the data are readily available and represent a higher risk population in Wisconsin. Childhood

overweight is increasing at alarming rates and is likely to continue to increase until a multi-faceted, comprehensive plan is implemented to improve nutrition and increase physical activity. The objective projections reflect this reality.

26. Section Number: State Performance Measure #14

FORM 12
TRACKING HEALTH OUTCOME MEASURES
[SECS 505 (A)(2)(B)(iii) AND 506 (A)(2)(A)(iii)]
STATE: WI

OUTCOME MEASURE # 01

The infant mortality rate per 1,000 live births.

<u>Annual Objective and Performance Data</u>					
	1999	2000	2001	2002	2003
Annual Performance Objective	7	6.9	6.8	6.7	6.6
Annual Indicator	6.7	6.6	7.1	6.9	
Numerator	456	457	491	471	
Denominator	68,181	69,289	69,012	68,510	
Is the Data Provisional or Final?				Final	

<u>Annual Objective and Performance Data</u>					
	2004	2005	2006	2007	2008
Annual Performance Objective	6.5	6.4	6.3	6.2	6.1
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

OUTCOME MEASURE # 02

The ratio of the black infant mortality rate to the white infant mortality rate.

<u>Annual Objective and Performance Data</u>					
	1999	2000	2001	2002	2003
Annual Performance Objective	2.7	2.6	2.7	2.5	2.5
Annual Indicator	2.6	3.0	3.3	3.3

Column Name:

Year: 2005

Field Note:

Source: Numerator and Denominator: Wisconsin Department of Health and Family Services, Wisconsin Division of Health Care Financing, Bureau of Health Information, Wisconsin Births and Infant Deaths, 2002. Madison, Wisconsin, 2004.

Data issues: Data for 2003 are not available from the Wisconsin Bureau of Health Information until mid-2005.

2. Section Number: Outcome Measure 2

Field Name: OM02

Row Name:

Column Name:

Year: 2005

Field Note:

Source: Numerator and Denominator: Wisconsin Department of Health and Family Services, Wisconsin Division of Health Care Financing, Bureau of Health Information, Wisconsin Births and Infant Deaths, 2002. Madison, Wisconsin, 2004.

Data issues: Data for 2003 are not available from the Bureau of Health Information until mid-2005.

3. Section Number: Outcome Measure 3

Field Name: OM03

Row Name:

Column Name:

Year: 2005

Field Note:

Source: Numerator and Denominator: Wisconsin Department of Health and Family Services, Wisconsin Division of Health Care Financing, Bureau of Health Information, Wisconsin Births and Infant Deaths, 2002. Madison, Wisconsin, 2004.

Data issues: Data for 2003 are not available from the Bureau of Health Information until mid-2005.

4. Section Number: Outcome Measure 4

Field Name: OM04

Row Name:

Column Name:

Year: 2005

Field Note:

Source: Numerator and Denominator: Wisconsin Department of Health and Family Services, Wisconsin Division of Health Care Financing, Bureau of Health Information, Wisconsin Births and Infant Deaths, 2002. Madison, Wisconsin, 2004.

Data issues: Data for 2003 are not available from the Bureau of Health Information until mid-2005.

5. Section Number: Outcome Measure 5

Field Name: OM05

Row Name:

Column Name:

Year: 2005

Field Note:

Numerator: Sum of fetal deaths ≥ 28 week and infant deaths < 7 days ($214 +$). Denominator: Number of live births + number of fetal deaths, 2001.

Source: Wisconsin Department of Health and Family Services, Wisconsin Division of Health Care Financing, Bureau of Health Information, 2004.

Data issues: For years 1998-2001, the perinatal mortality rate was calculated using fetal deaths 20 or more weeks in gestation, not 28 or more weeks in gestation.

Therefore, previous years' indicators were higher than for 2001; we revised our objectives accordingly. Data for 2003 are not available from the Bureau of Health Information until mid-2005.

6. Section Number: Outcome Measure 6

Field Name: OM06

Row Name:

Column Name:

Year: 2005

FORM 14
LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: WI FY: 2005

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. Dental Access and Care: To assure dental health for children.
2. Health Access: To assure safe and health child care.
3. Child Care: To assure safe and healthy child care.
4. Family and Parenting: To increase parenting skills.
5. CSHCN Systems of Care: To assure a community-based system of care for CSHCN.
6. Health Disparities: To assure culturally competent services for minority and immigrants.
7. Teen Pregnancy: To increase teenage pregnancy prevention efforts.
8. Alcohol, Tobacco and other Drugs Use and Abuse: To decrease ATODA among women and children.
9. Early Prenatal Care: To increase early prenatal care especially among minorities.
10. Injury: To decrease unintentional and intentional injuries.

FORM 16
STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET
STATE: WI

SP # 1

PERFORMANCE MEASURE:

Percent of children less than 12 years of age who receive one physical exam a year.

STATUS:

Active

GOAL

Increase the percent of children less than 12 years of age who receive one physical exam per year.

DEFINITION

Numerator:

Weighted number of children who received at least one physical exam within the past year.

Denominator:

Census estimate of children during calendar year.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Wisconsin Family Health Survey, Bureau of Health Care Financing Annual EPSDT Participation Report

SIGNIFICANCE

Health maintenance through primary care services, including well child check-ups results in early detection and treatment of health problems and improves the chances of leading a healthy life. The implementation of Wisconsin's Children's Health Insurance Program (BadgerCare) will increase health care utilization by children birth to 12 years of age.

SP # 2

PERFORMANCE MEASURE:	Percent of women at risk of unintended pregnancies (as defined by Alan Guttmacher Institute) receiving family planning and related reproductive health services through publicly funded clinics.
STATUS:	Active
GOAL	To decrease the percent of unintended pregnancies in Wisconsin.
DEFINITION	<p>Numerator: Number of women receiving contraceptive services at GPR/Title V and Title X funded clinics.</p> <p>Denominator: Estimated number of Wisconsin women at risk of unintended pregnancy by AGI.</p> <p>Units: 100 Text: Percent</p>

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES	Family Planning data
SIGNIFICANCE	Unintended, untimely and unplanned pregnancy can adversely affect the health, social, and economic well being of women, children, and families. Approximately 44% of women and couples not using contraception and not seeking pregnancy will experience unintended pregnancy; only 7% of women and couples using contraception will experience an unintended pregnancy.

SP # 3

PERFORMANCE MEASURE:

Percent of women who use tobacco during pregnancy.

STATUS:

Active

GOAL

Decrease the percent of women who use tobacco during pregnancy.

DEFINITION

Numerator:

Number of women who self-report the use of tobacco during pregnancy during the calendar year.

Denominator:

Total number of live births to Wisconsin women per calendar year.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Wisconsin birth certificate data file.

SIGNIFICANCE

Wisconsin's maternal smoking rate (16.5% in 2000) is above the national average (12.2% in 2000). Poor pregnancy outcomes due to maternal smoking are well documented. These substances can endanger the pregnancy and the newborn's health (low birth weight, higher risk of unsuccessful pregnancy and premature birth, and other health problems).

SP # 4

PERFORMANCE MEASURE:

Percent of high school youth who self-report taking a drink in the past 30 days.

STATUS:

Active

GOAL

Decrease the percent of high school youth who self-report taking a drink in the past 30 days.

DEFINITION

Numerator:

Unweighted estimate of high school youth surveyed (YRBS) who self-report use of alcohol.

Denominator:

Unweighted estimate of high school youth surveyed (YRBS).

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Youth Risk Behavior Survey (YRBS)

SIGNIFICANCE

The acceptance of alcohol use in Wisconsin combined with the adolescent mindset of experimentation and risk-taking behaviors contributes to adolescent use. Delaying the age of first use can reduce the seriousness of associated problems. Strong collaborative efforts, especially at the community level, will increase awareness of harmful use and prevent use and abuse of alcohol.

SP # 7

PERFORMANCE MEASURE:

Percent of women enrolled in WIC during pregnancy who initiated breastfeeding.

STATUS:

Active

GOAL

To improve the health outcomes of infants and their mothers by increasing the incidence of breastfeeding.

DEFINITION

Numerator:

Number of women enrolled in WIC during pregnancy who initiated breastfeeding.

Denominator:

Number of women enrolled in WIC during pregnancy.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Pregnancy Nutrition Surveillance System (PNSS)/WIC data.

SIGNIFICANCE

The health benefits of breastfeeding are related to the duration of breastfeeding. The more breast milk an infant receives in the first 6 months of life, the less likely the baby will develop diarrhea, ear, upper and lower respiratory tract infections, and certain chronic diseases. The more fully and longer a woman breastfeeds the lower her risk of breast cancer, ovarian cancer, osteoporosis, and the better the child spacing for those not using contraceptives. Breastfeeding reduces health care and household food costs.

SP # 12

PERFORMANCE MEASURE:

Percent of children, ages 6-8, with untreated dental decay in primary and permanent teeth.

STATUS:

Active

GOAL

Reduce the percent of children, ages 6-8, with untreated dental decay in primary and permanent teeth.

DEFINITION

Numerator:

Number of children, ages 6-8, who have untreated dental decay in primary and permanent teeth.

Denominator:

Number of children, ages 6-8, in state during year.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

National Health and Nutrition Examination Survey (NHANES), CDC, NCHS; Oral Health Survey of Native Americans, 1999, HIS; California Health Needs Assessment of Children 1993-94, Wisconsin surveillance activity.

SIGNIFICANCE

To avoid pain and discomfort, decayed primary teeth need to be restored, particularly molars in children aged 6 to 8 years. Retention of primary molars until they fall out normally (aged 10 to 12 years) allow adequate dental arch space for the eruption of succeeding permanent premolars and avoids the tipping forward of first permanent molars, possibly creating serious orthodontic problems. Carious permanent teeth should be repaired promptly so that fillings may be kept small and as much natural tooth as possible conserved. Often, fillings have to be replaced several times during life; each time, additional tooth structure has to be removed, weakening the tooth. Preventing the initial cavity by appropriate use of fluorides and sealants is preferable to restoring the tooth after disease has occurred.

SP # 13

PERFORMANCE MEASURE:

Percent of children, ages 2-4, who are obese or overweight.

STATUS:

Active

GOAL

To reduce the percent of children, ages 2-4, who are obese or overweight

DEFINITION

Numerator:

Unduplicated number of enrolled WIC participants who are children, ages 2-4, in Wisconsin at => 95 percentile during the reporting period.

Denominator:

Unduplicated number of enrolled WIC participants who are children, ages 2-4, in Wisconsin during the reporting period.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

CDC, Pediatric Nutrition Surveillance System (PedNSS)/WIC data.

SIGNIFICANCE

Childhood and adolescent obesity can lead to negative psychosocial and medical conditions. Medical conditions related to child and adolescent obesity can be both short and long-term. Overweight and obese children are at risk for sleep apnea, orthopedic complications, Type 2 diabetes, and elevated levels of cholesterol, blood pressure, triglycerides, and fasting insulin. Overweight adolescents have a 1.5 to 2-fold increased risk for being overweight as adults. As a result, they are also at increased risk for long-term medical conditions such as coronary heart disease, colon cancer, diabetes, asthma, and arthritis.

SP # 14

PERFORMANCE MEASURE:

Ratio of the black infant mortality rate to the white infant mortality rate.

STATUS:

Active

GOAL

To reduce the disparity (ratio) between the black and white infant mortality rates.

DEFINITION

Numerator:

The black infant mortality rate per 1,000 live births during the reporting period (most recent data for calendar year).

Denominator:

The white infant mortality rate per 1,000 live births during the reporting period (most recent data for calendar year).

Units: 1 **Text:** Ratio

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

State vital records.

SIGNIFICANCE

A significant gap exists in Wisconsin between the infant mortality rates (IMR) of African American and white infants. Infants born to African American women in Wisconsin are almost three times as likely to die in the first year of life than infants born to white mothers. This disparity of 3 to 1 exceeds the disparity of 2.4 to 1 for the nation as a whole. Although the overall IMR for Wisconsin declined from 17 infant deaths per 1,000 live births in 1970 to 7.2 per 1,000 in 1998, the IMR for African American babies hovered near 18 per 1,000 live births for the last decade. The IMR for whites was 5.6 infant deaths per 1,000 live births in 1998 compared to the black rate of 17.9 per 1,000 live births. This trend continued in 1999 and 2000.

SP # <u>15</u>	
PERFORMANCE MEASURE:	Death rate per 100,000 among youth, ages 15-19, due to motor vehicle crashes.
STATUS:	Active
GOAL	To decrease the number of deaths to youths, ages 15-19, due to motor vehicle crashes.
DEFINITION	<p>Numerator: The number of deaths from motor vehicle crashes in Wisconsin to youths, ages 15-19, during the reporting period.</p> <p>Denominator: The number of youths in Wisconsin, ages 15-19, during the reporting period.</p> <p>Units: 100000 Text: Rate per 100,000</p>
HEALTHY PEOPLE 2010 OBJECTIVE	
DATA SOURCES AND DATA ISSUES	Wisconsin death certificate data file.
SIGNIFICANCE	Motor vehicle crashes are the leading cause of death for youth. Wisconsin's young drivers are more likely to be in a motor vehicle crash than any other age group.

SP # 16

PERFORMANCE MEASURE:

The percent of MCH clients/families who receive one or more supportive services* to enhance child health, development and/or safety.

STATUS:

Active

GOAL

Increase the percentage of MCH clients/families who receive one or more supportive service from Title V to enhance child health,

DEFINITION

*Supportive services include: parent-to parent for CSHCN, firearm safety, child passenger safety, parentin classes, home safety assessments, bike and helmet safety, personal safety, and child development screening.

Numerator:

Number of clients/families who received supportive services from Title V.(Car restraint use, bicycle helmet use, parenting skills, peronsal safety, firearms in home safety, home hazard assessments corrections made).

Denominator:

Number of clients/families who recevied services from Title V.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

All programs report from the MCH Data System.

SIGNIFICANCE

If children are to realize their full potential as adults they need parents who have the capacity to safely and effectively support their growth and development. Is is the community's responsibility to assist famlies in gaining these skills through supportive services.

FORM NOTES FOR FORM 17

None

FIELD LEVEL NOTES

1. Section Number: Health Systems Capacity Indicator #01

Field Name: HSC01

Row Name:

Column Name:

Year: 2005

Field Note:

Source: Wisconsin Division of Health Care Financing, Bureau of Health Information. Numerator: Number of children under 5 hospitalized with asthma (ICD 9=493) as a primary diagnosis, 2002 Wisconsin Hospital Discharge File. Denominator: Wisconsin Department of Health and Family Services, Division of Health Care Financing, Bureau of Health Information. Wisconsin Interactive Statistics on Health (WISH), <http://dhfs.wisconsin.gov/wish/>, Population Module, accessed 03/01/04.

Data issues: Beginning in 2000, the reported asthma numbers are based on deduplicated counts of children with asthma hospitalization. Before 2000, the counts and rates are based on numbers of hospitalizations. Using the previous method, in 2000, there were 888 asthmas hospitalizations for children under 5, or 26.1 per 10,000. In 2001, there were 1,002 asthma hospitalizations for children under 5, or 29.3 per 10,000. Data for 2003 are not available from the Bureau of Health Information until mid 2005.

2. Section Number: Health Systems Capacity Indicator #02

Field Name: HSC02

Row Name:

Column Name:

Year: 2005

Field Note:

Source: Numerator and denominator from the Medicaid Evaluation and Decision Support Data Warehouse for SFY2003.

3. Section Number: Health Systems Capacity Indicator #03

Field Name: HSC03

Row Name:

Column Name:

Year: 2005

Field Note:

Source: Numerator and denominator from the Medicaid Evaluation and Decision Support Data Warehouse for SFY2003.

Data issues: BadgerCare began in July 1999 as a Medicaid program to implement SCHIP. Low-income uninsured families who are not eligible for Medicaid qualify for BadgerCare if family income is at or below 185% of the federal poverty level (FPL). Families remain eligible for BadgerCare until their income exceeds 200% FPL. BadgerCare has increased enrollment of children in Medicaid. Since the implementation of BadgerCare, an additional 74,900 children have enrolled in Medicaid. Many BadgerCare families are mixed _ younger children are in Medicaid, who are eligible for Healthy Start with incomes up to 185% of the FPL, and older siblings and parents in BadgerCare. An increase in the numbers of infants to age one receiving at least one EPSDT service from BadgerCare has increased due to continued growth of the program. Families enrolled with incomes below 185% and remain with income ranges between 185% to 200 FPL. Families with an income at or above 150% of the federal poverty level pay a premium equal to 3% of their income.

4. Section Number: Health Systems Capacity Indicator #04

Field Name: HSC04

Row Name:

Column Name:

Year: 2005

Field Note:

Source: Numerator and denominator: Wisconsin Department of Health and Family Services, Wisconsin Division of Health Care Financing, Bureau of Health Information, Wisconsin Births and Infant Deaths, 2002. Madison, Wisconsin, 2004.

Data issues: Data for 2003 are not available from the Bureau of Health Information until mid-2005.

5. Section Number: Health Systems Capacity Indicator #07

Field Name: HSC07

Row Name:

Column Name:

Year: 2005

Field Note:

Source: Numerator and denominator from the Medicaid Evaluation and Decision Support Data Warehouse for SFY2003.

6. Section Number: Health Systems Capacity Indicator #08

Field Name: HSC08

Row Name:

Column Name:

Year: 2005

Field Note:

The denominator of 13, 446 is provided within a report from the Social Security Administration and the numerator is the same. Data Issues: All SSI beneficiaries less than 16 years old are automatically eligible for Wisconsin's Medicaid Program which provides comprehensive rehabilitative services. As such, Title V's role is focused on assuring families are aware of and enrolled in SSI. This indicator is consistent with other States with universal Medicaid coverage for these services.

FORM 18
HEALTH SYSTEMS CAPACITY INDICATOR #05
(MEDICAID AND NON-MEDICAID COMPARISON)
STATE: WI

INDICATOR #05 <i>Comparison of health system capacity indicators for Medicaid, non-Medicaid, and all MCH populations in the State</i>	YEAR	DATA SOURCE	POPULATION		
			MEDICAID	NON-MEDICAID	ALL
a) Percent of low birth weight (< 2,500 grams)	2002	Payment source from birth certificate	<u>8.2</u>	<u>4.8</u>	<u>6.5</u>
b) Infant deaths per 1,000 live births	2002	Payment source from birth certificate	<u>9.6</u>	<u>5.8</u>	<u>7.3</u>
c) Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester	2002	Payment source from birth certificate	<u>73.7</u>	<u>91</u>	<u>84</u>
d) Percent of pregnant women with adequate prenatal care (observed to expected prenatal visits is greater than or equal to 80% [Kotelchuck Index])	2002	Payment source from birth certificate	<u>69.5</u>	<u>84.4</u>	<u>78.4</u>

FORM 18
HEALTH SYSTEMS CAPACITY INDICATOR #06 (MEDICAID ELIGIBILITY LEVEL)
STATE: WI

INDICATOR #06 <i>The percent of poverty level for eligibility in the State's Medicaid programs for infants (0 to 1), children, Medicaid and pregnant women.</i>	YEAR	PERCENT OF POVERTY LEVEL MEDICAID (Valid range: 100-300 percent)
a) Infants (0 to 1)	2003	<u>185</u>
b) Medicaid Children (Age range <u>1</u> to <u>18</u>) (Age range <u> </u> to <u> </u>) (Age range <u> </u> to <u> </u>)	2003	<u>185</u> <u> </u> <u> </u>
c) Pregnant Women	2003	<u>185</u>

FORM 18
HEALTH SYSTEMS CAPACITY INDICATOR #06 (SCHIP ELIGIBILITY LEVEL)
STATE: WI

INDICATOR #06 <i>The percent of poverty level for eligibility in the State's SCHIP programs for infants (0 to 1), children, SCHIP and pregnant women.</i>	YEAR	PERCENT OF POVERTY LEVEL SCHIP
a) Infants (0 to 1)	2003	<u>185</u>
b) Medicaid Children (Age range <u>1</u> to <u>18</u>) (Age range <u> </u> to <u> </u>) (Age range <u> </u> to <u> </u>)	2003	<u>185</u> <u> </u> <u> </u>
c) Pregnant Women	2003	<u>185</u>

FORM NOTES FOR FORM 18

Source: Wisconsin Department of Health and Family Services, Division of Health Care Financing, Bureau of Health Information, 2004. Medicaid status at birth depends on the mother being a Wisconsin resident, and to a lesser extent, on the birth occurring in Wisconsin, therefore, analyses are restricted to infants born in Wisconsin whose mothers were Wisconsin residents.

FIELD LEVEL NOTES

1.

Section Number: Indicator 05

Field Name: CareFirstTrimester

Row Name: Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester

Column Name:

Year: 2005

Field Note:
Data issue: This value is slightly different from the value for National Performance 18 "Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester" which is 84.2%. The data source for the performance measure is the resident occurent birth file; 68,510 births, of whom 57,686 women (84.2%) received prenatal care beginning in the first trimester. The data source for the HSCI #05 is the resident birth file and restricted to infants born in Wisconsin whose mothers were Wisconsin residents; 66,294 women, of whom 55,688 (84%) received prenatal care beginning in the first trimester.

2.

Section Number: Indicator 05

Field Name: AdequateCare

Row Name: Percent of pregnant women with adequate prenatal care

Column Name:

Year: 2005

Field Note:
Source: Numerator and denominator: Wisconsin Department of Health and Family Services, Wisconsin Division of Health Care Financing, Bureau of Health Information, Wisconsin Births and Infant Deaths, 2002. Madison, Wisconsin, 2004.
Data issues: Data for 2003 are not available from the Bureau of Health Information until mid-2005.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: WI

HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)
(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Information)

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
ANNUAL DATA LINKAGES		
Annual linkage of infant birth and infant death certificates	3	Yes
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	3	No
Annual linkage of birth certificates and WIC eligibility files	3	No
Annual linkage of birth certificates and newborn screening files	1	No
REGISTRIES AND SURVEYS		
Hospital discharge survey for at least 90% of in-State discharges	3	No
Annual birth defects surveillance system	2	No
Survey of recent mothers at least every two years (like PRAMS)	1	No

*Where:
1 = No, the MCH agency does not have this ability.
2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.
3 = Yes, the MCH agency always has this ability.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: WI

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	3	No
Other:		

HEALTH SYSTEMS CAPACITY INDICATOR #09C (Data Capacity) Overweight/Obesity
(The Ability of the State to Determine the Percent of Children Who are Obese or Overweight)

Data Source	Does your state participate in this survey/data source? (Select 1 - 3)*	Does your MCH program have direct access to this electronic database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	3	No
Pediatric Nutrition Surveillance System (PedNSS)	3	No
WIC Program Data	3	Yes
Other: Behavior Risk Factor Surveillance System (BRFS)	3	No
Pregnancy Nutrition Surveillance System (PNSS)	3	No

*Where:
1 = No
2 = Yes, the State participates but the sample size is not large enough for valid statewide estimates for this age group.
3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

Notes:

1. HEALTH SYSTEMS CAPACITY INDICATOR #09B was formerly reported as Developmental Health Status Indicator #05.

FORM NOTES FOR FORM 19

None

FORM NOTES FOR FORM 21

Data for these indicators were from several state agencies and race/ethnicity data are not reported consistently across these agencies.

FIELD LEVEL NOTES

1. **Section Number:** Indicator 06A
Field Name: S06_Race_Infants
Row Name: Infants 0 to 1
Column Name:
Year: 2005
Field Note:
Source: Wisconsin Department of Health and Family Services, Bureau of Health Information, 2004.
2. **Section Number:** Indicator 07A
Field Name: Race_Women15
Row Name: Women < 15
Column Name:
Year: 2005
Field Note:
HSI#07A. Source: Wisconsin Department of Health and Family Services, Bureau of Health Information, 2004. In Wisconsin, all live births were classified by race or Hispanic origin of mother into one of six categories: non-Hispanic white, non-Hispanic black/African American, non-Hispanic American Indian, Hispanic/Latino, non-Hispanic Laotian/Hmong, and non-Hispanic other (which are mostly Asian). For this table, Asian includes: Asian - other (529) and Laotian/Hmong (1058) = 1587. More than one race reported is not a classification for Wisconsin birth data.
3. **Section Number:** Indicator 08A
Field Name: S08_Race_Infants
Row Name: Infants 0 to 1
Column Name:
Year: 2005
Field Note:
Source: Wisconsin Department of Health and Family Services, Bureau of Health Information, 2004.
4. **Section Number:** Indicator 09A
Field Name: HSIRace_Children
Row Name: All children 0 through 19
Column Name:
Year: 2005
Field Note:
Source: Wisconsin Department of Health and Family Services, Bureau of Health Information, 2004.
Data issue: These demographic data, by age and by race/ethnicity are from the US Census 2000. They are the most recent data available for Wisconsin by age and race/ethnicity.
5. **Section Number:** Indicator 09A
Field Name: HSIRace_SingleParentPercent
Row Name: Percent in household headed by single parent
Column Name:
Year: 2005
Field Note:
These data are not available.
6. **Section Number:** Indicator 09A
Field Name: HSIRace_TANFPercent
Row Name: Percent in TANF (Grant) families
Column Name:
Year: 2005
Field Note:
Source: Department of Health and Human Services, Temporary Assistance for Needy Families (TANF), Fifth Annual Report to Congress, Characteristics and Financial Circumstances of TANF Recipients, 2002 Table 10.37.
Data issue: The percent of TANF families by Total NOT Hispanic/Latino was not reported.
7. **Section Number:** Indicator 09A
Field Name: HSIRace_MedicaidNo
Row Name: Number enrolled in Medicaid
Column Name:
Year: 2005
Field Note:
Data are SFY2003.
8. **Section Number:** Indicator 09A
Field Name: HSIRace_SCHIPNo
Row Name: Number enrolled in SCHIP
Column Name:
Year: 2005
Field Note:
Data are SFY2003.
9. **Section Number:** Indicator 09A
Field Name: HSIRace_FoodStampNo
Row Name: Number enrolled in food stamp program
Column Name:
Year: 2005
Field Note:
Wisconsin Department of Health and Family Services.
10. **Section Number:** Indicator 09A
Field Name: HSIRace_WICNo
Row Name: Number enrolled in WIC
Column Name:
Year: 2005
Field Note:
Source: WIC data are for children, ages 0-4, these data include Hispanic ethnicity as a race and not as an ethnic category. Enrolled and Participation Report, WIC 801 for the month ending 10/31/03.
11. **Section Number:** Indicator 09A
Field Name: HSIRace_JuvenileCrimeRate

Row Name: Rate (per 100,000) of juvenile crime arrests

Column Name:

Year: 2005

Field Note:

Source: Wisconsin Department of Justice Assistance, Statewide Juvenile Arrests by Race, 2002.

Data issue: Data are collected for the Summary UCRF Reporting System established by the FBI and are not grouped by ages. Juveniles are defined as anyone under 18.

The Asian category is not sub-divided into Chiense, Native Hawaiian, etc.; ethnicity data are not collected. Rates were collected from the census data in row one, and therefore, are rates for 0-19 years.

12. Section Number: Indicator 09A

Field Name: HSIRace_DropOutPercent

Row Name: Percentage of high school drop-outs (grade 9 through 12)

Column Name:

Year: 2005

Field Note:

Source: Wisconsin Department of Public Instruction, WINSS data, SY 2002-03.

Data issue: These data are for grades 7-12. Asian includes Native Hawaiian or Other Pacific Islander; data for >1 race, and Other/Unknown are not available.

13. Section Number: Indicator 09B

Field Name: HSIEthnicity_SingleParentPercent

Row Name: Percent in household headed by single parent

Column Name:

Year: 2005

Field Note:

These data are not available.

14. Section Number: Indicator 09B

Field Name: HSIEthnicity_MedicaidNo

Row Name: Number enrolled in Medicaid

Column Name:

Year: 2005

Field Note:

Data are SFY2003.

15. Section Number: Indicator 09B

Field Name: HSIEthnicity_SCHIPNo

Row Name: Number enrolled in SCHIP

Column Name:

Year: 2005

Field Note:

Data are SFY2003.

16. Section Number: Indicator 09B

Field Name: HSIEthnicity_FoodStampNo

Row Name: Number enrolled in food stamp program

Column Name:

Year: 2005

Field Note:

Wisconsin Department of Health and Family Services, 2004.

17. Section Number: Indicator 09B

Field Name: HSIEthnicity_WICNo

Row Name: Number enrolled in WIC

Column Name:

Year: 2005

Field Note:

Source: Enrolled and Participation Report, WIC 801 for the month ending 10/31/03.

18. Section Number: Indicator 09B

Field Name: HSIEthnicity_JuvenileCrimeRate

Row Name: Rate (per 100,000) of juvenile crime arrests

Column Name:

Year: 2005

Field Note:

These data are not available by ethnic origin.

19. Section Number: Indicator 09B

Field Name: HSIEthnicity_DropOutPercent

Row Name: Percentage of high school drop-outs (grade 9 through 12)

Column Name:

Year: 2005

Field Note:

Source: Wisconsin Department of Public Instruction, WINSS data, SY 2002-03.

20. Section Number: Indicator 10

Field Name: Metropolitan

Row Name: Living in metropolitan areas

Column Name:

Year: 2005

Field Note:

Source: Wisconsin Department of Health and Family Services, Bureau of Health Information, 2004.

21. Section Number: Indicator 11

Field Name: S11_total

Row Name: Total Population

Column Name:

Year: 2005

Field Note:

Source: Wisconsin Department of Health and Family Services, Bureau of Health Information, 2004.

22. Section Number: Indicator 12

Field Name: S12_Children

Row Name: Children 0 through 19 years old

Column Name:

Year: 2005

Field Note:

Source. Wisconsin Department of Health and Family Services, Bureau of Health Information, 2004.

23. **Section Number:** Indicator 09A

Field Name: HSIRace_FosterCare

Row Name: Number living in foster home care

Column Name:

Year: 2005

Field Note:

Source: Wisconsin Department of Health and Family Services. Division of Children and Families. 2004.

24. **Section Number:** Indicator 09B

Field Name: HSIEthnicity_FosterCare

Row Name: Number living in foster home care

Column Name:

Year: 2005

Field Note:

Source: Wisconsin Department of Health and Family Services. Division of Children and Families. 2004.
